Connect to Computer

- Slide USB latch down. USB arm flips up automatically.
  - Connect USB arm to computer's USB port.
- Your camcorder will begin recharging and you can install FlipShare™ software on your computer.

Recharge Battery

- Slide USB latch down. USB arm flips up automatically.
  - Connect USB arm to computer's USB port.
  - Recording light turns on to indicate charging. When charged, the recording light turns off.
- The camcorder uses a sealed, rechargeable battery.
  - Recharging a discharged battery takes about three hours.
  - The camcorder may remain connected to your computer after it is fully charged, but disconnecting it will help preserve the battery's lifespan and performance.
  - The optional Flip Video Power Adapter can charge the battery in about two hours.

Note: Your computer must be powered on for the camcorder to charge.

Record and Play

Touch-Sensitive Buttons

Gently touch lighted icons with your finger to activate the controls on the back panel.

Recording Videos

- Press record button to start/stop. ●
- Touch up/down buttons to zoom in/out. + -

Playing Videos

- Touch play button to start/pause. ▶
- Touch left/right buttons to view previous/next. ◀ ▶

Tip: Hold left/right during playback to rewind/fast-forward.

Deleting Videos

- Touch delete button. ⏏ Select YES to confirm.
- Tip: Delete button is locked when you first power on. To unlock, press and hold delete button.

Save, Edit, and Share

FlipShare™ preloaded software makes organizing, editing, and sharing video incredibly simple. When you plug in your camcorder, open FLIPVIDEO and launch Setup FlipShare™ (PC) or Start FlipShare™ (Mac).

Declaration of Conformity

Responsible Party: Cisco Systems, Inc.  
 30 Maiden Lane, 6th Floor, San Francisco, CA 94108

**FCC COMPLIANCE STATEMENT**  
 This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**RADIO AND TV INTERFERENCE**  
 This equipment has been tested and found to comply with the limits for a Class B digital device in accordance with the specifications in Part 15 of FCC rules. These specifications are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and the receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/television technician for help.
- The supplied interface cable must be used with the equipment in order to comply with the limits for a digital device pursuant to Subpart B of Part 15 of FCC Rules.

CAUTION: Changes or modifications to this device not authorized by Cisco, Inc. may void the user's authority to operate this device.

CANADIAN ICES-003 STATEMENT:

This Class B digital apparatus complies with Canadian ICES-003.
